

Hinckley Parks Fundraisers - an update from the PTA

Last year was definitely a very quiet one in terms of the work that the PTA could do. But we still supported behind the scenes and we have lots of plans to bring fundraising events back to life for this academic year and the future. Do let us know if you can help.

We aim to raise vital funds to support the school and enhance to opportunities the children can get. Last year the PTA were able to fund science equipment, Y6 hoodies and fun for the kids through Christmas parties within their class bubbles.

In the absence of traditional events the children created their own 100 challenges with the money being split between the IslaStones Foundation and school funds. Although not directly organised by the PTA, the sponsored event proved that with the right focus & motivation the school community can raise a huge amount of money. A sponsored event of this kind will definitely return and we aim to continue this link to such a worthy charity.

The Big Plan

With the focus within (and outside of) school on physical and mental wellbeing, the major project we will undertake is to invest in some outdoor gym equipment to be sited near to the tennis courts to give something more to the older children in the school and to build upon the success of the trim trail delivered previously. We aim to get some equipment as soon as we can with the area to be built upon in the future.
